BLOOD PURIFIERS

We often hear persons speak of their blood as being this or that, and this most frequently in the spring of the year.

There is a popular belief that when spring comes, should be given a purge to rid it of the poisons which are supposed to have accumulated during the winter, and to rid this by a tonic to purify the blood.

It is true that at the time the spring comes, there are a number of people who do not feel well. They are all tired out and their appearance shows the description. They give of themselves. No wonder they feel miserable and look it. For months they have led the kind of life which would make anyone lose his health. They sleep through the night, but in the morning, they get up with a headache, take no exercise, never go out into the fresh air, and eat just as much as they do when they are active during the summer. It is bad habits of living during the winter months which cause the trouble; the blood has nothing to do with it.

Prevention is better than cure, but if you have not been taking reasonable care of your health during the winter and you are now feeling the results of your carelessness, you will want to know what you should do.

The only way to get back what you lost is by paying attention to the points you have neglected. Health which you have lost by indifference will not be regained by

use of "spring tonics." Health is found in fresh air, exercise and attention to the diet.

The body is quite capable of ridding itself of its waste material. If it is given half a chance, the waste material will be eliminated. Take a warm bath at least once a week to help the skin in function properly. Drink a glass or two of water before breakfast and between each meal to help elimination. Cultivate regular toilet habits. Fresh food acts as a stimulant for the whole body, together with sunshine, is nature's own spring tonic.

The body cannot be healthy unless it is kept in good running order by exercise. The big muscles of the body must be kept in condition by use. Whether it is work or play which brings them into use does not matter so long as they are used.

Eat according to what you are doing. Let your diet consist of a wide variety of foods, and remember that milk, green vegetables and fruits should be used regularly.

The blood is as pure in the spring time as it is at any other time. Alterations in the blood are brought about by certain diseases, but not by the seasons of the year.

Blood purifiers are not required. What is needed, and all that is needed is healthy living.

There's No Perfect Crime

Billy: "I've done damn good but you didn't really take a hully!"

Billy: "I forgot to wet the scup."

THE BASSANO MAIL
Published Every Thursday
Wallace J. Smith
Editor and Publisher
Subscription—\$2.00 a year in Canada
\$2.50 to the United States

OUR NEW DRESS

The Bassano Mail makes its appearance this week in "all home print," as it is called in trade lingo. All home print means all the paper is printed in the shop where the paper is published. Formerly the paper was eight pages, four of them "ready print," meaning already printed elsewhere.

We hope our readers will like the new appearance of the paper. True it has fewer pages, but we believe it is an improvement over the old style. The ready print carried a certain amount of news and articles, but much of this reading matter was stale, out of date, and the reader had already seen it in the daily papers.

The paper is now an all home product. It possesses individuality that it did not have when using the same ready print used by hundreds of other weeklies in the west.

We aim to keep The Mail a bright and newsy paper. It is a local paper, published in the interests of the people in this and surrounding counties. Its editor will appreciate any help the readers may give by passing on to him bits of news that will make interesting reading. Articles of dates and other organizations, reports of meetings, the comings and goings of people, unusual accidents taking place, all makes news, and we want to hear about it.

CRIME FILMS RULED OUT

The Paramount Public Corporation has set a good example by announcing that, beginning in July, no more crime pictures will be shown in their theatres.

The decision against crime and gang pictures comes as a result of protests from judges, police officials, educators and parents. They state that it is the young people who are harmed, that in the crime film the crook is often the hero, or at least gets the sympathy of the audience. The young people get a twisted idea of the world; they long to indulge in some of the exploits they see on the screen.

Paramount's move is a praiseworthy one; it will help make cleaner and better picture programs in their theatres. Crime pictures are a number of interesting themes for our stories. Crime pictures may be thrilling, but there is danger of their having a harmful effect on youth.

A BATTLE FOR THE SUGAR BUSINESS

Farmers and business men in the irrigation areas of Alberta are wondering what is going to happen out of the best sugar industry. The Raymond beet sugar factory has been sold to the business rival—the British Columbia Sugar Co. The factory will handle the 1931 crop of beets, but after that has been disposed of the policy of the new owners has not been defined.

Rumors are current that the Raymond factory will be closed down after this year's beet crop is handled. These rumors have not been confirmed, but it is probable that they are true and that the factory will be closed unless the future sees a big improvement in the sugar industry over present conditions.

At any rate it is quite patent that keen rivalry exists in the sugar industry. The Raymond factory began operations about five years ago, and has been doing an increased volume of business every year. Plans were being shaped for the building of other beet sugar factories in Alberta, and in other irrigated areas there was among farmers a growing interest in the raising of sugar beets.

This interest had developed to a point where, in two irrigated areas, the salient beet acreage had been ascertained to warrant the building of two factories.

Now the B. C. Sugar Co. arrives on the scene and buys out its business rival. With its competitor out of the way the B. C. Sugar Co. now has a clear field. Since the beet growers have contracted for the sale of this year's crop the Raymond factory must continue operations for another year. After that the new owners, since they control both beet sugar and cane sugar output, may choose to eliminate the Raymond factory or offer the beet grower such a low figure for beets that he cannot raise them at a profit. The farmers would then discontinue beet growing and the factory would be closed.

The Utah-Idaho Sugar Co., former owners of the Raymond factory, claimed they lost money on their

WANDERLUST

(By William Orlith)

Something down in the dark,
Once on a time,
Sought escape . . . and a spark
Gladdened the prime.

Joy . . . and a dawning gaze
Kindled the sun,
Forsaking the iron days,
Till had begun.

Doffly came witchery
Weaving a spell,
And put the sounding sea
Into a shell.

Something designed the trees,
Filtered—and then,
Fanning the furnaces,
Labored on men;

Snitting and hammering
This from an ape,
Thing from the slammering
Shadowny shape.

Giving them each the vast
Reach of the sky,
Since the dark ages passed
Tardily by . . .

From the steel tyrannies
That heresy gave,
Something still promises
Rest and release.

Urging and beckoning
City and town
Forth for a reckoning.
Now and anon.

Over the open trail,
Clean from the din;
Sun stars a friendly hail,
Lights and the Inn.

Get Their Finger Prints
"Seven towns, I believe, claimed
Honor."
"Some of our citizens are wanted
by more than that."

Tip for Travelers
For a cure for warts
A proper appeal.
A plan he might try to
To help down his marks.

Just Another Bawling Out
Judge: "The traffic officer says
you got sarcastic with him."
Mr. Nagger: "But I didn't intend
to be. He talked to me like my wife
does, and I forgot myself and
answered, 'Yes, my dear.'"

Superhuman Faith
"How did you come to raid that
barber shop?" the dry agent was
asked.
"Well," he replied, "I struck me
kind of funny that such a lot of
fellows should buy hair restorer
from a bald-headed barber."

Bailed Up For Bathing
"Clothes do not make the man."
Observe the dandy's—
If former proofs required
Just gaze on Gandhi's.

Knows What Makes Angels
Young Husband: "Last night
when I was alone with my wife, I
slipped ready for me to put on, my
pipe filled, and—"
Wife: "How did you like her
new hat?"

Revering Judge Lindsey
"How is it I see Jones and his
former wife together so much lately?
I thought they were separated."
"Oh, there is a companionable
divorcee."

Letting Fate Do Its Worst
The Smiths are on the balcony
and can hear what a young couple
are saying in the garden below.
Mrs. Smith: "I think he wants to
propose. We ought not to listen.
Whistle to him."
Mr. Smith: "Why should I? No
body whistled to warn me."

operations in Alberta. Perhaps
they did during the first few years,
but the industry has expanded to a
point where the factory was operating
at full capacity last year. And
with propositions being made to es-
tablish other factories in the province
it would seem that the best sugar
industry was or would be
shortly a profitable business.

Perhaps that is the reason why
the B. C. Sugar Co. eliminated their
competitors by buying them out.
paying, it is alleged, about double
the actual value of the Raymond
factory and equipment.
Farmers are hoping the sale of
the Raymond factory will not be the
end of the best sugar business in
Alberta. The question of govern-
ment aid for the industry has yet to
come before the federal govern-
ment, and should aid be forth-
coming British or American capital
may become interested in the best
sugar industry here.

BASSANO CREAMERY

Livestock Industry

Winnipeg: The rise of the livestock industry to a parity with that of wheat and flour in Western Canada is being commented upon by the Winnipeg press. It is pointed out that one-fourth of Canada's population is supplied by the meat industry. Winnipeg, which ships beef, pork, veal, lamb and mutton to every corner of the Dominion. Figures compiled recently reveal that one million and a half pounds of meat were consumed in Canada in 1930. Of this total approximately half a billion pounds was received and shipped from the stockyards of Winnipeg. A total of 185,692 and 87,677 calves, 238,066 hogs and 57,650 sheep and lambs entered Winnipeg stockyards in 1930 from the grazing lands of the prairie. A turnover in excess of \$20,000,000 represented the business of two of the city's largest packing plants.

Millers Allowed to Use 25 per cent Foreign Wheat in Mixing

May Help Canadian Wheat Farmers
Paris, April 30.—The government Wednesday raised the percentage of foreign wheat which may be mixed with domestic grain. It is now legal for millers to use 25 per cent. The percentage has been raised from 10 per cent to 25 within the past two months.

Western Opinion

WINNIPEG, April 30.—France's increase in the percentage of foreign wheat to be mixed with the domestic product will "help a little" in improving exportation of Canadian grain, according to A. P. White, president of the Winnipeg Grain Exchange. France, it was announced Wednesday night, increased the percentage of foreign wheat for mixing to 25 per cent, and Mr. White believed that this move would aid somewhat in decreasing the Canadian surplus, but he expected no drastic rise in Canadian exports.

Any removal of restrictions against foreign wheat on the continent would tend to improve Canada's position, Mr. White stated. He also intimated that it would benefit other countries shipping wheat to France. He was unable to state whether the increase in the percentage of foreign wheat for mixing made by France several weeks ago had caused any undue jump in Canadian shipments to that country, but he believed the increase to 25 per cent would be found to relieve the situation in this country slightly.

"Germany," Mr. White revealed, "is at present contemplating the lowering of her tariff against foreign wheat which would and further to the clearing of Canada's surplus." The European countries, he said, will shortly come into the market for wheat, resulting in a lowering of tariffs and an increased demand for the Dominion's product.

McFarland's Opinion

WINNIPEG, April 30.—John I. McFarland, general manager of the Central Selling Agency of the Wheat Pool, believed France's action gave a brighter outlook for the sale of Canada's surplus. Several weeks ago, he said, France increased the percentage and it caused an improvement in export. "The raise to 25 per cent," he added, "will be welcomed."

The Wheat Pool head stated that according to reports from a prominent "home" supplier of European countries are getting low. He pointed to the fact that the German republic was considering lowering her tariff on foreign wheat which would increase shipments to that country.

Crowfoot News

CROWFOOT, April 28.—Seedling operations are in full swing, and a good rain would be welcomed by everybody.

Howard Larson, Harvey Jorgensen and Veyl Campbell spent a pleasant week-end in Miss visiting Mr. and Mrs. Carlyle Sutton.

Geo. Nelson and Miss Erna Kunnison were Bassano visitors last Saturday.

R. Shoultice, of Arrowwood, was a visitor at the home of Mrs. J. C. Clark last Thursday evening.

Scott J. N. Conway and Tom Fisher of Bassano, were callers in this vicinity last Wednesday.

Miss Edna Long, of Calgary, spent the week-end with her parents, Mr. and Mrs. Long.

Mr. and Mrs. C. C. Jorgensen were Bassano visitors last Monday.

Mr. and Mrs. Chas. Rodbourne and Sidney, William Rodbourne and Kate, Hopkinson, attended the ball game in Bassano last Sunday.

Mr. and Mrs. W. H. Harris and Joe Harris, of Bassano, were visitors at the home of Mr. and Mrs. Long last Sunday.

Mrs. Clark returned home last Thursday after spending a few days in Calgary visiting friends and relatives.

Mr. and Mrs. E. W. Campbell and Veyl Campbell spent the day of Mr. and Mrs. Rodbourne last Sunday. Mr. and Mrs. T. Ingberg, of Bassano, were callers in this vicinity last Sunday.

before June 20th. In all probability oats will have to be seeded at this late date.

Summer following—Arrange your summer following programme for this year if with a manager that you can have all weed growth destroyed by the end of July, so that you can get entirely out of the fields throughout August and September in order to safeguard your 1932 crops.

better if the soil is moist at the time of application.

If, as frequently occurs, the cutworms are not to be crawling freely on the surface of the soil and they are nearly all travelling in one direction, though a deep furrow across their line of march and scatter the bait along it. This is more effective than broadcasting and is economical in bait.

Failure to obtain a good killing with bait is due, usually, to failure to scatter it at the proper time. If the cutworms are not feeding, or do not find it, before it dries out it is nearly all wasted.

Pale Western Cutworm
Appearance—Color slaty gray. No markings on body.

Area where damage is almost sure to occur. Nearly all of the province to the south and east of Stettler, particularly along the Red Deer River and the Goose Lake railroad line. No trouble from this cutworm is anticipated to the north or west of Stettler, or in the western half of southern Alberta.

Crops most susceptible to attack. All grain crops. Broad leaved plants, such as garden produce, clovers, etc., are not eaten very freely by this cutworm.

Control—Practically nothing can be done to prevent all of the eggs laid last fall from hatching this spring. Deep ploughing may destroy a few of them, but this is uncertain. In all fields in which the moths laid many eggs last fall cutworms will be present in destructive numbers this spring and summer.

Poisoned bait is practically useless for the control of this cutworm. Do not waste good money in scattering it over large infested areas.

Preventing egg laying. It has been definitely shown that the moths will not lay their eggs in soil that is crusted on the surface in August and September. Nearly all have been laid in fields that had a loose dust surface during these months last year. It is dangerous to seed such fields with wheat this spring. If they are heavily infested with eggs the crop is certain to be destroyed.

Test Stripping—If possible, summer farmers in these fields this year, but if you decide to seed them this year we would suggest that, as soon as possible, you seed a single drill width of wheat diagonally across such them. Then seed you "safe" fields. By the middle of May, or as soon as it shows signs of heavy cutworm feeding, don't waste good seed by seeding the entire field. If on the other hand, it shows no signs of damage it is not too late, at this date, to seed with wheat.

Re-seeding—Don't reseed destroyed fields, or seed fields known to be infested, till the cutworms are fully grown and are about one and a half inches long. This, usually, is not

EXPERT
Piano Tuning

W. A. WEBB

Moore Jew's leading piano expert will be in town until Monday

Now is the time to have your piano tuned by an expert tuner. Tuner for T. Eaton Co., Moore Jew, 14 years experience.
